

# Notice to Surveyors

**T4/2021**

## New CSD requirement: Road Widenings as lots

Updates have been made to Landgate's [APX-05 Digital Data Format Specification](#) document.

### Overview of change:

Where road widenings are being created as lots on a plan, Landgate has introduced updated CSD requirements. Please refer to Sec 2.15.4 of the updated [APX-05](#) document on our website.

- The polytype must be "W".
- Polyident 1 must state the lot number.
- Polyident 2 must be "WDG".

### Timing for change:

CSD files can be lodged using this new format immediately. From 1 July 2021, any incorrect CSD file can be rejected, and the surveyor will be required to submit a new file. From 1 August 2021, an incorrect CSD file can incur a Level 2 requisition.

For any queries about this notice, please e-mail [PlanReformProjectEnquires@landgate.wa.gov.au](mailto:PlanReformProjectEnquires@landgate.wa.gov.au).

A handwritten signature in black ink that reads "P Beaver".
